DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-33, drawn to a method of making paper, classified in class 162, subclass 158.
 - II. Claims 34-40, drawn to a method of making a seed tape, classified in class 47, subclass 57.6.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects, functions and mode of operation. Claim 1 refers to a paper which no seed is added, while claims 34-40 refers to a paper with a seed added to it. Therefore the mode of operation, effects and function are different from the different groups because the paper of claim 1 can be used as container or other use of common paper or paperboard, e.g., as Kraft paper, corrugated box, etc.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
